

Exploratory Data Analysis on Green Taxis

This project is an analysis on the data collected by the New York City Taxi and Limousine commission about **"Green"** Taxis. Green Taxis (as opposed to yellow ones) are taxis that are not allowed to pick up passengers inside of the densely populated areas of Manhattan

The analysis is on the September 2015 dataset. Link to download dataset can be found [here](#)

How to run the code

- Step 1 : Install the python dependencies by running below command

```
$ pip install -r requirements.txt
```

- Step 2 : Open the Python Notebook from notebook folder and run the code cell by cell
